

To encourage more youths to participate in National Youth Parliament Festival 2019 through Digital medium, by uploading their recorded videos, it has been decided to extend the last date for the Digital Screening process from 18.01.2019 to 05:00 PM of 20.01.2019.

Consequent actions are expected from all Regional Directors (NSS), State Directors (NYKS) and State NSS Officers:

1. They should widely publicize the extension of the last date through their social media networks and local/regional press (electronic and print).
2. The Screening Committee should also be immediately informed about the extension of last date, so that they are available for screening of uploaded contents, as per the guidelines, during extended dates.
3. It has been decided that MyGov will provide the uploaded videos for screening on the 18th, 19th and 20th evening.
4. Regional Directors (NSS), State Directors (NYKS) and State NSS Officers should ensure that the screening is completed by the screening committee on the same date they receive the videos.
5. For the videos sent to them on 20th evening, the final evaluation sheet should reach the NSS Directorate latest by 21st afternoon. If required, additional screening committees may also be constituted if the volume of the video participation increases.
6. The segregated list of selected participants from each district would be sent back to all RDs by 21st evening, so that all the selected participants are informed latest by the evening of 21st January, 2019 itself.
7. It is important to note that there can be no compromise on time deadlines because any delay would result in non-communication of the selection to the participants, which would hamper the whole process of District Youth Parliament.
